TEST DATE: 05/23/10

STATIC TEST OF A/C CONDENSATE LINE

For this report, a static test of the a/c condensate line is described as:

The a/c condensate test is performed by blocking the drain where it exits the foundation and filling it with water and monitoring it for a period of 30 minutes. A drop in the water level at the end of the test would indicate the presence of leaks.

Does the line leak under static pressure? _____ Yes X No
Connected to sanitary drain? _____ Yes X No
Amount of loss 0 " Length of test 30 Minutes
Type of piping PVC Copper X Poly

NOTES: A/C CONDENSTATE TEST HELD.
